DENIED – REZONING REQUEST BY HYLTON REAL ESTATE, LLC FOR PROPERTY LOCATED ON THE EAST SIDE OF HYLTON ROAD, APPROXIMATELY 0.45 MILES SOUTH OF DON TYSON PARKWAY, FROM SF-2 TO MF-4

Planning Director Patsy Christie presented an Ordinance rezoning property owned by Hylton Real Estate, LLC, for property located on the east side of Hylton Road, approximately 0.45 miles south of Don Tyson Parkway, from SF-2 to MF-4.

Planning Commission recommended approval at their December 3, 2019 meeting.

After reading the title of the Ordinance, Council Member Evans moved the Ordinance “Do Pass”. Council Member Jaycox made the second.

This property borders C.I. and Willie George Park.
Several adjacent property owners who live on Butterfly Avenue were present at City Council expressing concern with drainage problems, their home valuations decreasing and a lot more traffic causing safety issues. People are using their street as a cut-through street from the Hylton Road to Butterfield Coach Road. All these extra units proposed to be built will add a lot more people cutting through on Butterfly Avenue. They travel way too fast through the subdivision.

Brian Moore, Engineer representing the owners, explained the owners are proposing all brick duplexes.

Planning Director Patsy Christie explained MF-4 allows a variety of different types of housing.

After considerable discussion, the vote was taken.

Yes:  Williams, Fulfer
No:  Jaycox, Watson, Overton, Lawson, Evans, Powell

The Ordinance was denied by a 2-6 vote.

ORDINANCE NO. 5440 – CREATING CHAPTER 100 OF THE CODE OF ORDINANCES OF THE CITY OF SPRINGDALE, ARKANSAS, TO IMPLEMENT THE SMALL WIRELESS FACILITY DEPLOYMENT ACT (ACT 999 OF 2019), CODIFIED AT ARKANSAS CODE ANNOTATED §23-17-501, ET SEQ; AND FOR OTHER PURPOSES

Council Member Mike Overton presented an Ordinance creating Chapter 100 of the Code of Ordinances of the City of Springdale, Arkansas, to implement the Small Wireless Facility Deployment Act (Act 999 of 2019), codified at Arkansas Code Annotated §23-17-501, et seq; and for other purposes.

The deployment of small wireless facilities and other next-generation wireless and broadband network facilities is a matter of federal and statewide concern and interest. Wireless and broadband products and services are a significant and continually growing part of the economy, and accordingly, encouraging the development of strong and robust wireless and broadband communications networks is integral to economic competitiveness. Rapid deployment of small wireless facilities will serve numerous important goals and public policy of meeting growing consumer demand for wireless data, increasing competitive options for communications services available to residents, and promoting the ability of citizens to communicate with other citizens, states, and municipalities, and promoting public safety. Small wireless facilities, including facilities commonly referred to as “small cells” and distributed antenna systems often are deployed most effectively in a public right-of-way. To meet the key objectives of this subchapter and federal law, wireless service providers must have access to public rights-of-way and the ability to attach to infrastructure located in public rights-of-way to increase the density of the wireless service provider’s networks and provide next generation wireless services. Rates and fees for the permitting and deployment of small wireless facilities in public rights-of-way and on City infrastructure, including poles, consistent with federal law, is reasonable and will encourage the deployment of robust next-generation wireless and broadband networks for the benefit of citizens throughout the City. The procedures, rates, and fees established in this Ordinance are consistent with federal law and multiple ordinances adopted by municipalities throughout the state; fair and reasonable when viewed from the perspective of the City’s interest in having robust, reliable, and technologically advanced wireless and broadband networks; and, reflective of a balancing of the interests of the wireless providers deploying new facilities and the interests of the City in recovering its costs of managing access to the public rights-of-way and the attachment space provided on City infrastructure in the public rights-of-way. Municipalities are the custodians of public rights-of-way, and public property within the public rights-of-way, within the limits of their respective jurisdictions and may adopt ordinances and regulations governing the use, construction, development, and appearance of public and private property within their respective jurisdictions. Municipalities recognize the economic and social value of data connectivity and desire to encourage wireless infrastructure investment by providing a fair and predictable process for the deployment of small wireless facilities within the public rights-of-way in a manner that is safe, compatible with and complementary to the provision of services by the municipality and others lawfully using the rights-of-way, and consistent with the aesthetic standards of the City. The Arkansas General Assembly passed Act 999 of 2019, known as the Small Wireless Facility Deployment Act, thereby expressing the intent of the Arkansas General Assembly that the operation of small wireless facilities are matters of statewide concern and interest.

It is in the best interests of the citizens of the City of Springdale, Arkansas, that the City of Springdale implement the Small Wireless Facility Deployment Act, Act 999 of 2019, codified at Ark. Code Ann. §23-17-501, et seq, as provided herein.

In accordance with your request, we have appraised the above referenced property. The report of that appraisal is attached.

The purpose of the appraisal is to develop an opinion of market value for the property described in this appraisal report, as improved, in unencumbered fee simple title of ownership.

This report is based on a physical analysis of the site and improvements, a locational analysis of the neighborhood and city, and an economic analysis of the market for properties such as the subject. The appraisal was developed and the report was prepared in accordance with the Uniform Standards of Professional Appraisal Practice.

The opinion of value reported above is as of the stated effective date and is contingent upon the certification and limiting conditions attached.

It has been a pleasure to assist you. Please do not hesitate to contact me or any of my staff if we can be of additional service to you.

Sincerely,

Larry O. Kennedy

## FIRREA / USPAP ADDENDUM

**Author:** Carol Kendrick  
**Property Address:** 350 N Main St  
**City:** Springfield  
**County:** Washington  
**State:** AR  
**Tax ID:** 77-084

### Purpose
To determine the market value of the listed fee interest of the lot and improvements.

### Scope
See Addendum

### Intended Use / Intended User
**Intended Use:** To quantify the value of the subject property under the current utility.  
**Intended User:** Carol Kendrick

### History of Property
**Current Listing Information:** None
**Prior Sale:** None

### Exposure Time / Marketing Time
**Firrea/USPAP Addendum Exposure/Marketing Time:**

### Remarks
**None noted.**

### Additional Comments
The real estate is located in a corridor and is located approximately three blocks to the north of Emma Avenue which is considered part of the downtown footprint. It appears the City's intentions are to rezone this area to facilitating more residential development to the revitalization of the downtown area. Every neighborhood and area of this city has a unique life cycle. They are new construction, renaissance, decline and renaissance. In this particular situation the condition's neighborhood downtown corridor is in renaissance phase. This is similar to the 200 block of Water Street in the downtown area such as Rogers, Bentonville and Fayetteville. The neighborhood of the subject property, could be approximately four blocks to the north and south of Emma Avenue and this area could be more precisely Harbison to the north, Thompson to the west, Grove to the south and Water Street to the east.

### Certification Supplement
1. This appraisal assignment was not based on a required expert valuation, a specific valuation, or an appraisal of a loss.
2. My compensation is not contingent upon the reporting of a pre-determination value or direction in value that favors the cause of the client, the amount of the value estimate, the attainment of a stipulated result or the occurrence of a subsequent event.

DEFINITIONS OF VALUE

Given the scope and intended use of this assignment, the following definition of value is applicable:

Market Value
The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently, knowledgeably, and assuming that the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

1. Buyer and seller are typically motivated;
2. Both parties are well informed or well advised, and acting in what they consider their own best interests;
3. A reasonable time is allowed for exposure in the open market;
4. Payment is made in terms of cash in United States dollars or in terms of financial arrangements comparable thereto, and
5. The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

Source: Office of the Comptroller of the Currency (OCC), Title 12 of the Code of Federal Regulations, Part 34, Subpart C, Appendix; Office of Thrift Supervision (OTS), 12 CFR 564.2 (g). This is also compatible with the FIDC, FRS, and NCLC’s definitions of market value.

It should be noted that market value and market price (what price a property actually sells for) are often not the same. The appraiser’s estimate of market value is his prediction of the most likely selling price under the stated conditions of the report. Actual market prices are often influenced by unknown or hidden factors; thus, an appraisal does not guarantee that a sale will occur at market value.

There is one caveat to this definition of Market Value and that is “Leased Fee Interest”. This property is occupied by tenants with the anchor being Grand Savings Bank.

Leased Fee may be defined as follows:

An ownership interest held by a landlord with the rights of use and occupancy conveyed by lease to others. The rights of the lessor (the leased fee owner) and the lessee are specified by contract terms contained within the lease.
The intent of the Building Envelope Standard is to regulate the overall form of the Neighborhood Center Vertical mass, which are typically neighborhood mixed-use structures. In order to maintain the traditional character of these types of buildings, the building permits, setback, and amount of character shall be maintained. The overall form of these mixed-use buildings follows the existing emphasis of the area: there is a great variety of housing located back from the streetscape with a retention front yard or front courtyard. The intent is to maintain these spaces back from the streetscape.

VII - REFERENCE NOTES

1. The Building Line must match the average front facade line of the block face, and lots with NO Primary Street Frontage (abutting adjacent properties) are exempt from the Primary Street Building Line dimensional requirements, and are only required to have a ten foot (10') setback on said Frontage.

2. For buildings with Dwelling Units primarily opening to side yards, Side Setback is required to be ten feet (10'). Buildings higher than those (35 stories, or forty feet (40')) are required to have a ten foot (10') Side Setback.

3. Lots with NO Alley Frontage (abutting adjacent properties) are required to have a ten foot (10') setback on said Frontage.

4. The percentage (%), for the Primary Street can be adjusted to fifty percent (50%) in the case of the following Building Types: Courtyard Rowhouse and Courtyard Building.

5. On Thompson Street (U.S. 75) between W. Johnson Avenue and W. Maple Avenue, the Building Height Maximum is five (5) stories and thirty-three-tenths feet (33' 1/3').

6. The Civic or Institutional Building Type shall be allowed as a conditional Building Type in Neighborhood Center Type 1.

7. If no alley is present, no rear encroachment is allowed.

8. If the setback from an existing alley is less than five feet (5'), the allowed encroachment shall be equal to or less than existing setback dimensions.

9. On the following streets, ONLY residential uses are permitted on both the Ground Floor and Upper Floors: E. Maple Street, Robert Circle, S. Water Street, Water Street, Corry Circle, E. Grove Avenue, Allen Avenue, and S. Cleveland Street. No other uses are permitted.

10. The Figure reflects an additional dimension of thirty feet (30') beyond the Primary Street Building Line for above grade parking. Below finished ground floor-level parking can be coexistent with the Facade Line of the Building.

11. The Figure reflects an additional dimension of twenty feet (20') beyond the Side Street Building Line for above grade parking. Below finished ground floor-level parking can be coexistent with the Facade Line of the Building.

12. Along South Avenue, Park Street and Roosevelt Street, the maximum setback shall be five feet (5') and a maximum of 15 feet.

Freddie Mac Form 72 March 2005
Page 4 of 7
Fannie Mae Form 1025 March 2005
P. 60
This report form is designed to report an appraisal of a two- to four-unit property, including a two- to four-unit property in a planned unit development (PUD). A two- to four-unit property located in either a condominium or cooperative project requires the appraiser to inspect the project and complete the project information section of the Individual Condominium Unit Appraisal Report or the Individual Cooperative Interest Appraisal Report and attach it as an addendum to this report.

This appraisal report is subject to the following scope of work, intended use, intended area, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the recording requirements of this appraisal report form, including the following definitions of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject property; (2) inspect the neighborhood; (3) inspect each of the comparable sales from at least the street; (4) research, verify, and analyze data from reliable public and private sources; and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USERS: The intended users of this appraisal report are the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably, and assuming the police is not affected by undue obsolescence. Implicit in this definition is the consumption of a time as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) price is stated in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are also identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparison to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certifications in this report are subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal.

2. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.

3. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements, including each of the units. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size.

4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.

5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied, regarding this determination.

6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or adjustments on the assumption that the completion, repairs, or adjustments of the subject property will be performed in a professional manner.
APPRASIER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.

2. I performed a complete visual inspection of the interior and exterior areas of the subject property, including all units. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.

3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of the Appraisal Foundation and that were in place at the time this appraisal report was prepared.

4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison and income approaches to value. I have adequate market data to develop reliable sales comparison and income approaches to value for this appraisal assignment. I further certify that I considered the cost approach to value but did not develop it, unless otherwise indicated in this report.

5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.

6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.

7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.

8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.

9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.

10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.

11. I have knowledge and experience in appraising this type of property in this market area.

12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.

13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.

14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) obtained during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.

15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.

16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.

17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.

18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or directive in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).

19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.

20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.
Small Residential Income Property Appraisal Report

21. The lender/client may disclose or distribute this appraisal report to the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions, without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (excluding, but not limited to, the public through advertising, public relations, news, sales, or other media).

22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.

23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves one or more of these parties.

24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER’S CERTIFICATION: The Supervisory Appraiser certifies and agrees:

1. I directly supervised this appraisal assignment, have read the appraisal report, and agree with the appraiser’s analysis, opinions, statements, conclusions, and the appraiser’s certification.

2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser’s analysis, opinions, statements, conclusions, and the appraiser’s certification.

3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.

4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board, and that were in place at the time this appraisal report was prepared.

5. If this appraisal report was transmitted as an “electronic record” containing my “electronic signature,” as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

Final USPAP Addendum - Exposure/Marketing Time

All real estate markets in NW Arkansas have recovered from the recession of 2007. The majority of the sub-markets in this area are performing well above the highs that were established prior to 2007. It has been reported the residential market has experienced a minor correction in recent months, however, statistics for the SFR market in Springdale indicates SFR has increased over the past 3 years by 18.7%. Also during that period the number of units built is slightly down by 6% and the days on market are trending down but not at a dramatic rate. The National Association of Realtors indicates appreciation will continue thru 2020, but at a slower pace than has been prevalent over the past five years. Conversely, the income producing multi-unit market (duplexes, triplexes, four or more units) has continued to perform at a high level. These markets indicate low vacancies throughout the region and the demand by tenants has driven the rental rates upward in the past ten years. These issues are due in part to low unemployment in the region and the continued population growth in the region. Investors are looking for properties to add to their holdings. Nonetheless, according to the realtor MLS the average DOM for similar properties to the subject is 66 days with listed properties on the market for 37 days. In addition, over the past year in Springdale there have been forty-eight such units sold with an average selling price of $168,223. Currently there are only two such units on the market and the average list price is $255,000. It is mandatory to indicate exposure time in all appraisals. This is a hypothetical situation that is assumed to take place prior to the effective date of this report. This may or may not be similar to DOM. It is my opinion based on information from the MLS the potential exposure time for the subject property could be less than three months.

* FIREAUSP Addendum - SCOPE OF WORK

I inspected the subject property on December 23, 2019. The client indicated the appraisal should be based on market information as improved under the current configuration. I was accompanied by the owners/tenant during the inspection. I viewed the interior of both sides of the subject property. During the inspection procedure I measured the exterior of the property utilizing ANSI standards. In addition, I contacted the planning department for information concerning the current zoning regulation and how it is implemented in situations pertaining to the "Green Monster" statue (discussed in the form USPAP Identification). Furthermore, I utilized information from the Assessor’s Office of Washington County as well as the Circuit Clerk’s Office of Washington County. I also utilized information from the local realtors association MLS. After measurements were taken I noted any differences from what was indicated by the Assessor’s Office. After the site and improvements inspection I inspected the neighborhood to ascertain the compatibility of the subject to surrounding properties. Properties noted in the area were an apartment complex, a school and a museum. Naturally, the neighborhood that is described elsewhere in this report is being transformed, albeit at a slow pace, into what is prescribed in the NCG zoning regulations. All three approaches are developed in this report. The approaches were analyzed as to whether the supposed to and reliability and then reconciled.

* Small Income: Sales Comparison - Summary

In my opinion the above sales comparisons are the most compatible available at this time. The bedroom and bath configurations range from bedroom2 bath to 2 bedroom1 bath. They form a good bracket for value and bedroom/bath configuration to assist in developing an opinion of value. However, I was unable to track the age of the subject. Nonetheless, through the adjustment process it is my opinion the above comparables reflect values of duplexes in the subject’s area. Also, the subject has one enclosed garage that is connected to Unit A. This appears to be heated and cooled by a in-wall heat pump. However, this area does not resemble the interior of the subject. This room is adjusted separate from the garage configuration. The reader should be aware that the item adjustments in the grid if the comparable is inferior to the subject, then a positive adjustment is required. If the comparable is superior to the subject then a negative adjustment is required. The square footage of all of the comparables are adjusted at a difference in SF of the subject and comparable at $35/SF. The actual age of the units are modestly adjusted at $600/year between the comparable and the subject. It does not appear that the age of the units is an important as condition. In the adjustment process the comparables are adjusted to resemble the subject as much as possible through monetary adjustments. I valued the subject as a duplex property that is not influenced by current zoning and the ramifications of the future of City Administration as the ultimate disposition of the subject improvements. Comparable 1 consists of two units with each having three bedrooms and two baths. These units are slightly larger than the subject which is due to the subject’s Unit B being smaller with one less bath. In addition, this comparable has two car garages as compared to the subject’s one car garages. However, the comparable’s two car garages do appear to be somewhat small compared to the normal two car garage. In addition, the condition of the comparable is inferior compared to the subject. This required a positive adjustment. Comparable 2 is a newer duplex that is a great deal smaller than the subject; however, the comparable’s unit is similar compared to the subject. Comparable #3 is a similar compared to the subject. It does appear the condition and quality are similar compared to the subject. However, the MLS indicates it was in superior condition at the time of the sale. In addition, this comparable’s units both have two bedrooms and one bath. The reader should also note the trend of values indicated by the bottom of the adjustment grid. These categories include valuation, valuation, value/gross building area and value/squarefoot. These four have an average indication of value of $199,342. The Adjustment grid indicates a value of $135,000. The major difference between the grid value and the indications based on unit, room, GBA and bedrooms is the relatively high value per SF. The grid value is based on the weighting of each comparable indicated value based on the amount of gross adjustment. The more the adjustment the less the weighting.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consumption of a sale as of a specified date and the passing of the title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what they consider their own best interests; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale. (Source: FDIC Interagency Appraisal and Evaluation Guidelines, 2010.)

Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. STATEMENT OF LIMITING CONDITIONS AND CERTIFICATION

CONTINGENT AND LIMITING CONDITIONS: The appraiser's certification that appears in the appraisal report is subject to the following conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is valued on the basis of its being under responsible ownership.

2. Any sketch provided in the appraisal report may show approximate dimensions of the improvements and is included only to assist the reader of the report in visualizing the property. The appraiser has made no survey of the property.

3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.

4. Any distribution of valuation between land and improvements in the report applies only under the existing program of utilization. These separate valuations of the land and improvements must not be used in conjunction with any other appraisal and are invalid if they are so used.

5. The appraiser has no knowledge of any hidden or unapparent conditions of the property or adverse environmental conditions (including the presence of hazardous waste, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. This appraisal report must not be considered an environmental assessment of the subject property.

6. The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties.

7. The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice, and any applicable federal, state or local laws.

8. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that completion of the improvements will be performed in a workmanlike manner.

9. The appraiser must provide his or her prior written consent before the lender/client specified in the appraisal report can distribute the appraisal report (including conclusions about the property value, the appraiser's identity and professional designations, and reference to any professional appraisal organizations or the firm with which the appraiser is associated) to anyone other than the borrower; the mortgagor or its successors and assigns; the mortgage insurer; consultants; professional appraisal organizations; any state or federally approved financial institution; or any department, agency, or instrumentality of the United States or any state or the District of Columbia; except that the lender/client may distribute the property description section of the report only to data collection or reporting service(s) without having to obtain the appraiser's prior written consent. The appraiser's written consent and approval must also be obtained before the appraisal can be conveyed by anyone to the public through advertising, public relations, news, sales, or other media.

10. The appraiser is not an employee of the company or individual(s) ordering this report and compensation is not contingent upon the reporting of a predetermined value or direction of value or upon an action or event resulting from the analysis, opinions, conclusions, or the use of this report. This assignment is not based on a required minimum, specific valuation, or the approval of a loan.
CERTIFICATION: The appraiser certifies and agrees that:

1. The statements of fact contained in this report are true and correct.

2. The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.

3. Unless otherwise indicated, I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.

4. Unless otherwise indicated, I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.

5. I have no bias with respect to the property that is the subject of this report or the parties involved with this assignment.

6. My engagement in this assignment was not contingent upon developing or reporting predetermined results.

7. My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.

8. My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.

9. Unless otherwise indicated, I have made a personal inspection of the interior and exterior areas of the property that is the subject of this report, and the interiors of all properties listed as comparables.

10. Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification (if there are exceptions, the name of each individual providing significant real property appraisal assistance is stated elsewhere in this report).

RE: Detach from Cave Springs with Annex into Springdale

Mr. Watkins,

Thank you for coordinating with our office as you seek to detach property in Cave Springs and annex said property into the City of Springdale, AR located in Section 12, Township 18 North, Range 31 West. This letter represents confirmation that you have properly coordinated with our office (Arkansas GIS Office) as specified in § 14-40-101 (Act 914 of 2015) of the 90th General Assembly.

Our office will wait completion of any additional steps necessary for the proposed boundary change, which normally comes from the Arkansas Secretary of State Elections Division after any appropriate filing by your County Clerk.

Thank you,
