SCHEDULE B:

All Industrial Users are subject to an additional monthly sewer service charge (surcharge) to defray the long or short term costs associated with the treatment of high strength wastewater.

Monthly average discharges of Biochemical Oxygen Demand (BOD) of 289 mg/L and Total Suspended Solids (TSS) of 300 mg/L shall not be exceeded without incurring a surcharge.

(a) A surcharge shall be added to the monthly sewer bill of any Industrial User whose wastewater discharge exceeds the allowable base established herein. Such surcharge shall be calculated using the following formula:

**FORMULA FOR CALCULATING SURCHARGES:**

\[ S = V_{ww} \times 8.34 \times \left( Y \times (TSS - 300) + Z \times (BOD - 289) \right) \]

Where:
S = Surcharge in Dollars (monthly)
Vww = Volume wastewater in million gallons (monthly)
8.34 = Pounds per gallon of water
Y = Unit charge of TSS in dollars per pound
TSS = Total Suspended Solids strength index in milligrams per liter by weight (300 mg/L or more)
300 = Maximum TSS strength in milligrams per liter by weight
Z = Unit charge for BOD in dollars per pound
BOD = Five day Biochemical Oxygen Demand strength index in milligrams per liter by weight (289 mg/L or more)
289 = Maximum BOD strength in milligrams per liter

Current charges for Y = $0.547
Current charges for Z = $0.330

(b) The Springdale Water and Sewer Commission is authorized to suspend part or all of the surcharge based upon preapproved authorization to make scheduled repairs or installation of equipment.

(c) The current unit charge for Total Suspended Solids (Y) and the current unit charge for Biochemical Oxygen Demand (Z), as listed above, shall remain effective for sewer service billed. The Springdale Water and Sewer Commission shall review annually on a fiscal year basis the actual cost of treating high strength waste and shall increase or decrease the unit charge for Y and Z of the Formula for Calculating Surcharges in accordance with the finding of such review.

SECTION 4: That no free facilities or sewer services shall be furnished. In the event that the city or any department, agency or instrumentality thereof shall avail itself of the facilities or services afforded by the sanitary sewer service of the City of Springdale, the reasonable value of the service or facilities so afforded shall be charged against the city or such department, agency or instrumentality and shall be paid for as the charges therefore accrue at industrial rates.

SECTION 5: That the above schedule of rates be, and they are hereby fixed as rates to be charged for services to be rendered and benefits to be received from the wastewater collection and treatment facilities, to-wit:

(a) All bills for sewage collection and treatment shall be rendered to the user monthly, such statements to be rendered and collected by the City of Springdale, and shall cover the same period and collection procedures as corresponding water bills. All bills shall be rendered in the net amount due and the charge shall be determined by each thousand gallons of water, or portion thereof, furnished to each user.

(b) The gallonage of sewage collected and treated shall be based on water metered to each Domestic and Industrial User, exclusive of seasonal water and other water uses metered separately which do not directly or indirectly discharge flows into the sanitary sewer system. Direct sewer meters may also provide monthly treatment if approved in advance by Springdale Water Utilities.

(c) All users shall be connected to the Springdale water system and the discharge of all liquid waste to the sanitary system shall be derived from metered water supplied by the City of Springdale. The discharge of seasonal water, storm water, surface water, groundwater, roof runoff, or water from other sources which are not metered for sewer charges are prohibited.

SECTION 6: Any user who feels that their user charge is unjust and inequitable may make written application to the business office of Springdale Water Utilities (the assumed name under which the Springdale Water and Sewer Commission does business) requesting a review of the user’s charge. Said written request shall, where necessary, show the actual or estimated average flow and/or strength of the user’s wastewater in comparison with the values upon which the charge is based, including how the measurements or estimates were made. Review of the request shall be made by the Office Manager or a designated representative of Springdale Water Utilities. If the user’s request for an adjustment of the billing charges is substantiated, the sewer charges for that user may be adjusted in conformance with the adjustment policy of the Springdale Water and Sewer Commission. Billing adjustments shall be based on the revised flow and/or strength data.

SECTION 7: That if any section, sub-section, sentence, clause or phrase of this ordinance is for any reason declared unconstitutional or invalid, such unconstitutionality or invalidity shall not affect the validity of the remaining sections of this ordinance. This ordinance shall take precedence over any terms
or conditions or agreements or contracts which are inconsistent with the requirements of Section 204 (b) (1) (A) of the Clean Water Act, as amended or 40 CFR Part 35, Subpart I, Section 35.2140 promulgated by the United States Environmental Protection Agency on February 17, 1984.

SECTION 8: That the Springdale City Council, after investigation, finds that the above rates are reasonable and necessary rates to be charged for sewer service by the City of Springdale, Arkansas. The Council further specifically finds that said rates are sufficient to provide for the operation and maintenance of the Springdale sewer system and are necessary for the payment of principal and interest on bonds to be issued to finance sewer works construction and to expand such system as may from time to time be required, and to provide depreciation funds for replacement of the sewer system.

Re: City v. Baur Living Trust, et al
Washington County No. 72CV-19-2092
Maple Avenue Extension
SETTLEMENT NEGOTIATIONS

Dear Ernest:

Last week you and I discussed the possibility of settling this case with payment of total compensation to the Baur Living Trust (subject to the interests of Iberia Bank) in the amount of $10,000.00. You asked for some evidence to support settlement in that amount and I am providing that here.

With this letter you will find (a) an appraisal from 2015, and (b) an offer received by my client in August of this year for the purchase of the subject properties (in a package with others in the same area). In analyzing these documents I have tried to arrive at a value for the raw land without the improvements on a per square foot basis.

Using the 2015 appraisal you get a value per lot of $92,307.69. Using the offer received (and declined) back in August you get just shy of $143,000.00 per lot. I think it is perfectly reasonable to assume that an offer that is 4 years more recent than an appraisal is a fair representation of fair market value.

The County assessor values the improvements on each lot at roughly $29,000. For the sake of argument, being conservative, and accepting that the Assessor usually, I my experience, comes in low on valuations, let’s assume that the improvements are really worth $48,000 (just to pick a reasonable number). That leaves the value of the raw land at $95,000 dollars per lot based on the offer received. Now, to calculate the value per square foot.

Using the data from the 2015 appraisal (which was for 13 lots) we get:
$95,000.00 x 13 = $1,235,000 for all 13 lots
$1,235,000 ÷ 134,043 sq. ft of land (for all 13 lots taken from the 2015 appraisal) = $9.213/sq. ft.

In this condemnation case the City is taking a permanent easement encompassing 1,117.29 sq. feet of my client’s property. Using the above price per square foot we arrive at a value of $10,293.59 just for the permanent easement and giving no value to the temporary construction easement.

Given the above analysis, which I have made as conservative as is reasonable, I think that my client’s offer to settle for a total of $10,000.00 is very fair to the City. If we were to try this matter I would first start by using the Assessor’s value of the improvements which, as you have seen, is much lower than the figure I have plugged into my formula. This change alone would result in a much higher price per square foot.

I hope that we can resolve this in this manner. You have generously given me until October 11 to file an answer in this case. If you don’t think you can obtain a determination of whether or not we can resolve this case in this matter before then I would ask that you grant me an additional extension of time. If you have any questions, please do not hesitate to contact me. Thanks.

Generally speaking, as occupancy levels and expense ratios increase, EGIMs tend to decrease. Based upon this relationship, and given the subject's stabilized occupancy and OER estimates, an EGIM towards the middle of the range is appropriate.

Re: City Project No. 18BPS2 – Maple Avenue Extension
Recommendation of Award

Dear Mr. Baldwin:

Bids were received Tuesday, September 24, 2019 for the Maple Avenue Extension project. A total of six bids were received, with Sweetser Construction, Inc. the low bidder at $1,893,202.35.

A copy of the certified bid tabulation showing the complete bids, is included for your reference, as is a copy of the Attendees Sign-In Sheet. The engineer’s opinion of probable construction cost for the project, prior to receipt of bids, was $1,665,806.00. Increases in the cost are related to the fencing requirements incorporated into the project in Addendum 2 and demolition of buildings.

We have reviewed the Statement of Bidders Qualifications submitted by Sweetser Construction, Inc. and based upon the information provided, we believe them to be qualified to successfully complete this project. Therefore, we recommend that the City award this contract to Sweetser Construction, Inc. in the bid amount of $1,893,202.35.

The contract documents require the furnishing of 100 percent performance and payment bonds prior to authorization of the Notice to Proceed. Completion of the project is to be within 300 days from the date of the issuance of the Notice to Proceed.

If you have any questions, please do not hesitate to contact us.

Sincerely,

Wyman,

I have a few questions for you about the deal. My appraisal came in at 84K and would like to receive that, in your office when I picked up my offer you said some about 83K. It's not a huge difference but it would help me greatly in the upcoming move. I tried to attach the file to this email and couldn't figure out how to do it. Will get it printed and then to you. Also I’d like to do this by November 12th so I don’t have to make that months payment.

I’m on a waiting list for an apartment in Fayetteville and they told me it won’t be available until the end of November/December. With the students still in town it’s difficult to find anything that’s open immediately, that’s in my affordability. I’d like to stay until the apartment comes available and if it take a longer than January I can make different arrangements to have a place to live.

When I accept the offer how long till closing so I can pay the mortgage off and begin the process of packing and getting ready to move.

David
